Development of Urban Boulevards in Dollard-des-Ormeaux: One Last Participatory Workshop for 2023

Dollard-des-Ormeaux, November 6th 2023 – To conclude the first phase of the consultative process for the future Urban Planning Programme, the City of Dollard-des-Ormeaux is organizing a final workshop on the development of its major boulevards on **November 8th, at 7 p.m., at the Civic Centre.**

During this exercise, residents of Dollard-des-Ormeaux will have the opportunity to **work in teams around discussion tables and exchange their ideas to imagine and propose** convivial developments for Boulevards Saint-Jean, des Sources, de Salaberry, Brunswick, Spring Garden and Sunnybrooke.

This is a valuable exercise to shape a city that takes into consideration the innovative ideas of residents that are based on their daily experiences. For this reason, **the City strongly encourages all its residents to participate in the final workshop to re-imagine, dream and plan our City together!**

“I would like to congratulate our residents for their active involvement and remarkable participation in the revision of the Urban Planning Programme. Their invaluable input will contribute to the development of tomorrow's city in a collaborative and visionary manner that benefits the community as a whole”, stated Mayor Bottausci.

Through the consultative and interactive activities carried out since August 30, 2023, the City will be able, **in 2024, to adopt a new Urban Planning Programme adapted to the specific social, economic and environmental realities of our territory.**

Workshop reports and recorded information sessions can be found on our [website](#). For any further questions or information, please contact us at consultation@ddo.qc.ca or by telephone at 514 684-1012 ext. 2400.
