Re-Imagine, Dream and Plan our City together!
Expert Panel: Challenges of a Montreal Suburb in Transformation

Dollard-des-Ormeaux, September 12, 2023 — As part of an on-going consultative process for the future Urban Planning Programme, the City of Dollard-des-Ormeaux has assembled a diverse **panel of experts to discuss the development challenges of a Montreal suburb in transformation, on Wednesday, September 20.**

This highly anticipated panel of experts will take place at the **Civic Centre of Dollard-des-Ormeaux at 7 p.m.** and will cover relevant topics such as health, housing needs, the local economy and urban development and transformation projects. **We strongly encourage all our residents and the media to participate in this informative and interactive panel**, as well as in the upcoming participatory workshops to be announced soon. These events will provide citizens with an opportunity to explore themes that touch their daily lives and shape their vision of urban planning in the area they call home.

The fall consultative activities, announced on August 30th during the [webconference](#) will lead to the final drafting and adoption in 2024 of a new Urban Planning Programme and related by-laws that are better adapted to the social, economic and environmental realities for the City of Dollard-des-Ormeaux.

You will find more information about the [panel of September 20th](#), the Urban Planning Programme revision process and our participatory approach on our [website](#). For any further questions or information, please contact us at consultation@ddo.qc.ca or by phone at 514-684-1012, ext. 2400
