

## **A New Chalet at the Heart of Terry Fox Park** **The City Enhances Its Community Infrastructure**

**Dollard-des-Ormeaux, July 8, 2025** — The City of Dollard-des-Ormeaux officially inaugurated the brand-new chalet at Terry Fox Park, a unifying project that enhances the City's network of community infrastructure.

Modern, accessible, and multi-functional, the chalet offers a welcoming year-round space for sports, cultural, and recreational activities. It includes practical amenities for residents of all ages: changing rooms, event space, and accessible washrooms that meet the needs of all park users.

“This chalet is more than just a building — it’s a place for gathering, inclusion, and vibrancy within our community,” said Mayor Alex Bottausci. “Thanks to thoughtful investment and a citizen-centered vision, we continue to support projects that enrich our collective quality of life.”

The inauguration brought together elected officials, families, and community partners to celebrate this new space at the heart of Terry Fox Park.

The City extends its sincere thanks to everyone who helped bring this project to life, and to the community for its ongoing support.
