

Estimated project duration: 6 days

Avenue Cérès, between rue Gaspé and rue Delaney

- Closures of streets and parking spaces are planned.
- Flaggers will control vehicle access to the construction zone.
- Pedestrians and cyclists will have access at all times.
- The contractor is required to provide a safe perimeter around the construction site. Parking spaces may be used to store materials or equipment.
- Please obey all signage (detours, local traffic, etc.) to ensure safety and optimize fluid traffic during construction.

Information about the project

- Schedule: Monday to Friday, 7 a.m. to 7 p.m., Saturday and Sunday, 10 a.m to 7 p.m and Sunday to Thursday, 10 p.m to 6 a.m (Only the installation of the new asphalt will be carried out at night to minimize impacts on traffic).
- Signage will be removed at the end of each work period, except in exceptional cases
- Project duration may vary depending on weather and site conditions.

Construction sequence

- Removal of part of the damaged asphalt
- Adjustment of sumps and manholes
- Installation of new asphalt
- Marking (painting symbols on the ground)

Access to buildings will be maintained at all times.

Road system maintenance

With freeze-thaw cycles, dense traffic and heavy vehicles making roads more fragile, we pay special attention to the maintenance of our road network to ensure that it remains comfortable and safe for everyone.

The techniques we use:

- Reduce environmental impacts by recycling asphalt
- Maintain roads that are better adapted to traffic
- Offer users a safe and pleasant environment

Where is the site crew?

During stages that require a break (paint drying, concrete curing, asphalt cooling, etc.), or that are not carried out in the field (repairing a part, testing drinking water, etc.), workers are temporarily assigned to another project.
